

Decorating with the Christmas Jumper

At this time of year we will decorate our classrooms, our school and our homes with a Christmas tree, with lots of colours and we will be very busy trying to have a good time.

Thousands of children cannot be at home at this time of year because they have had to flee their homes due to the war. They would also like to decorate their house with lots of colours, so we will make chains with the outline of our Christmas jumper and hang them up in the classroom and in the corridors, showing our support for the festive season.

Before you start decorating, watch the video "Yes to Peace" to meet some of the children who are victims of conflict and cannot lead a normal life like yours.

Cut out the outlines below and colour them in. Write in the centre the word you want to convey to the children who will not be able to be at home this holiday season. Attach the outlines of the jumpers to a ribbon or string and hang it on the walls of the classroom or hallway.

Send us a picture of your Christmas jumper chains! We would love to share the image of your decorations so that many other schools can see them.

And now, the pupils will take the Christmas Jumper card home so that they can tell their families what they have worked on and learned in class about these children and complete their jumper with the stickers and with the help of their families.

CHRISTMAS
JUMPER DAY
