

Decorating with the Christmas Jumper

At this time of year, we will decorate our classrooms, our school and our homes with a Christmas tree, with lots of colours and we will be excited to have a good time. Thousands of children live in places where having a nutritious diet is a challenge. In order to show our support, we will make chains with the silhouette of our Christmas jumper and hang them up in the classroom and in the corridors.

Cut out the outlines below and colour them in. Write in the centre the word that you want to express to the children who suffer from malnutrition because of floods or wars. Attach the outlines of the jumpers to a ribbon or string and hang it on.

Send us a picture of your Christmas jumper! We would love to share it with other schools.

And now, the students will bring the Christmas Jumper card to their families and explain them what they worked and learned in class about these children. Their families can help them to complete their jumper with the stickers.
